Mark Jones, PE
Technical and Regulatory Manager
FRALO Plastech Manufacturing LLC
One General Motors Drive
Syracuse, New York 13206

Dear Mr. Jones:

I have completed the review of the FRALO Plastech septic tank technical report submitted on June 2, 2004. Based on the information provided, the FRALO ST-1060, ST 1250 and ST 1500 meet all current applicable septic tank requirements found in OAC 252:641 "Individual and Small Public On-site Sewage Treatment Systems" and are approved for installation in Oklahoma.

Please be advised that the CSA or IAPMO certification must be kept current for this approval to remain valid and that the septic tanks must continue to meet the additional construction standards found in OAC 252:641-7.

Sincerely,

Robert Huber, Program Manager
Environmental Complaints and Local Services
Oklahoma Department of Environmental Quality
